

### Between Ourselves

Down at Belmont Park, Long Island, the crack air-men of the world are competing for ALTITUDE RECORDS, ENDURANCE records and the like. The sport is fast and furious and every day the papers tell of some new and marvelous feat.

These air-men are very COURAGEOUS and very SKILFUL and it will be strange indeed if many RECORDS are not broken before the meet comes to a close.

The bird-men are not the only ones who are striving for ALTITUDE RECORDS and ENDURANCE PRIZES. LIFE itself is pretty much of an ENDURANCE TEST from the moment we enter it until the time we shuffle off, while every man, woman and child with the smallest grain of ambition is striving for an ALTITUDE RECORD. We all want to reach the heights of fame and we all want to soar as near to FORTUNE'S GOAL as possible.

As long as life is but an endurance test and as long as we are after ALTITUDE RECORDS it behooves every one of us to equip ourselves, both mentally and physically, to that we can withstand the adverse air currents which we encounter in our flight.

We are all air-men after a fashion—aren't we?

### Do You Know About the Famous "Free" Sewing Machine?

This "different" machine, this "superior" machine, this perfect masterpiece—the very machine you have wished for for so many years—the machine of your imagination which you have sighed for every time the thread slipped around the spool pin of your old machine and broke, every time its shuttle wore out, every time its stitch skipped, every time its needle broke, every time your back became weary and your feet became tired.

We urge every woman who has labored with the old style, nerve-racking machine to come and see the "Free."

We know all about other sewing machines, from treadle to spool pin; we know them all, the cheapest and the highest priced. We have investigated them all. Every one of them has been found lacking in some real essential; every one of them has some glaring fault. The "Free" machine is the machine of the hour—the machine of the future. If you do much sewing you cannot afford to be without it. Sold on our liberal club plan; \$2.00 down (which amount applies directly to the cost of your machine) and \$4.00 a month or \$1.00 a week. Fifth floor.

"Elbeco" Hats **2.00**

"Cushion Flex" Hats **3.00**

Men's Caps **50c, 75c and 1.00**

### Regarding the "Rengo Belt" Corset

The "Rengo Belt" corset demonstration which we have been conducting for the past two weeks comes to a close tomorrow night. Come in and see what the manufacturer's expert representative has to say before she leaves. The reason that underlies the goring and boning of a corset is not apparent to the wearer. Outside of the difference in material, trimmings and hose supporters, all corsets look pretty much alike. But there is a very vital reason for all things in corset construction, otherwise corset making would not be the science it is today—evidenced by the fact that the corset designer can and does absolutely change the physical appearance of a woman's figure. It is not possible to explain all the intricacies of Rengo Belt corset construction and the reason thereof, but the fact that this corset is decidedly out of the ordinary is plainly evident by the comfort it gives—the style it produces—the way it wears—the hygienic support it gives the figure and the modish swing it gives the gown.

All sizes of Styles 41, 43, 46 and 47 at a uniform price **2.00**

Style 49—the best corset that can be made at any price **3.00**

**L. BAMBERGER & CO.**

### HOOKWORM BARS HINDU EMIGRANTS FROM 'FRISCO.

Sufferers Are Promptly Returned to Their Native Land.

SAN FRANCISCO, Oct. 28.—The recent discovery of hookworm among Hindus arriving at this port and the resultant rigid tests for the disease among newcomers is having a marked effect in stemming the tide of oriental immigration, according to the reports of the immigration officials at Angel Island.

The steamship Asia, which brought 111 Hindus to San Francisco, took 128 back to the Orient, when she sailed, most of the returning number having been deported, it is said, because they had been found to be victims of hookworm.

Out of 141 Hindus examined from the last three steamers 87 hookworm sufferers have been found.

### USE COLLEGE GIRLS AS GARMENT STRIKE PICKETS.

CHICAGO, Oct. 28.—A movement to enlist settlement workers and college girls as pickets in the garment workers' strike took form last night. Miss Agnes Hestor, treasurer of the league, said the methods employed by the league in the shirtwaist-makers' strikes in New York and Philadelphia will be introduced in Chicago.

She said the league at first will limit its activities to supplying speakers for the strike meetings of women and to obtain women for picket duty "whom the police will not dare to use their clubs on."
